Deputy for Support, [REDACTED]

30 September 1960

Deputy for Training

Special Support Requirements

1. The Basic HM Course which began on 1 August 1960 culminates in a comprehensive field problem to be conducted at [REDACTED] during the period 17 - 28 October. The students will be dropped into an operational situation which simulates a typical Contingency Task Force requirement.

25X1

2. [REDACTED] Staffs will be heavily engaged in all aspects of the problem. Medical support, transportation, including air, and additional operational help is being provided by Headquarters.

25X1

3. Security and Supply personnel are needed to fill out the necessary complement. These personnel would serve two purposes; (a) function as Base representatives providing the required support in their respective fields, (b) function as component representatives in a Task Force.

4. It is requested that Base Security and Supply personnel be assigned to the problem to carry out the above duties. Such personnel can be rotated if necessary. Ideally, representatives should be present throughout the exercise. Frequent air transportation will be available to accommodate the participants. I would like [REDACTED] at their earliest convenience to discuss our requirements in detail.
